PRICING TERMS — WEIGHT BASIS

Pricing under this invoice is based on the weight of goods at point of dispatch from origin (i.e. weight recorded by the freight forwarder at the loading port, evidenced by the freight forwarder's weight certificate issued contemporaneously with dispatch). Any natural weight variation during transit (including but not limited to moisture loss, particularly on long-haul shipments to the Middle East and other distant destinations) is at the buyer's risk and shall not constitute grounds for short-payment, claim, or dispute. Weight verification on arrival is for the buyer's internal QC purposes only and does not affect the contractual price set out in this invoice.
